SUMMARY

Final-year Electrical Engineering student with 4+ power sector internships spanning wind (52.8MW), solar (50MW), thermal (880MW), and grid protection (220kV/132kV). Co-led a 20-person team running events for a 50+ member chapter. Seeking a Graduate Trainee Engineer role to apply hands-on power sector experience toward grid operations, renewable energy, or protection & control systems.

EDUCATION

Bachelor of Electrical Engineering | **Mehran University of Engineering and Technology** — Jamshoro, Pakistan **CGPA: 3.8/4.0**

WORK EXPERIENCE

Dec 2022– Dec 2026

Intern | **Master Wind Energy Limited** — Jhimpir, Pakistan

May 2026

- Completed on-site internship at a 52.8 MW wind plant with 33 GE turbines, monitoring performance, readings, and helping diagnose turbine faults including derating issues, gearbox faults, used GE SCADA systems to monitor real-time performance
- Participated in annual maintenance procedures and safety drills, lock out tag out
- Visited Sachal Wind Energy Limited (50 MW) to benchmark Goldwind turbine technology against GE systems

Intern | **National Grid Company** — Hyderabad, Pakistan

Jul 2025 – Aug 2025

- Studied protection schemes across 220/132/11kV, systems (relays, breakers, transformers); independently modeled the local grid network in ETAP and ran load flow analyses
- Reviewed distribution-side operations across feeders, transformers, and metering/billing systems serving local households, and toured 132kV/220kV transmission towers and substations to map end-to-end power delivery

Intern | **Gharo Solar Limited** — Gharo, Pakistan

May 2025 – Jul 2025

- Diagnosed and resolved faults (line-to-line short circuits) and solar tracker malfunctions (motor, gear, shaft issues) at a 50 MW solar PV plant, progressing from guided to independent troubleshooting, supported daily control room and shift operations
- Performed equipment testing (transformers HV/LV, DRM), CT/PT, and GIS SF6 breaker dew point tests; studied PLCs, protection relays, wave traps, weather monitoring station (WMS) instrumentation, tracking systems and solar PV

Intern | **Jamshoro Power Company Limited** — Jamshoro, Pakistan

Jan 2024

- Gained foundational exposure to thermal power generation at an 880 MW, 4-unit thermal power station, observing electrical systems of boilers, turbines, and generators

PROJECTS

Thesis: Automatic Hybrid Solar Cleaning Robot — In Progress

- Designing an automated hybrid (dry + water) cleaning mechanism to reduce water usage; for water-scarce regions

SKILLS

- ETAP:** Modeled substations and (SLDs) across 0.4kV-132kV networks; performed load flow and short-circuit studies
- MATLAB/Simulink:** Built 15+ simulations for motors, control systems, inverters, and transient stability studies
- Multisim, Arduino, AVR Studio, Proteus:** Designed and simulated 10+ basic electronics circuits and embedded system
- Programming:** C++ (coursework projects); Python (basics)

POSITION OF RESPONSIBILITY

Secretary | **IEEE MTT-S MUET Chapter** — Jamshoro, Pakistan

Jan 2025 – May 2027

- Co-lead a core team of 20 to organize technical & community events for a 50+ member chapter, reaching 50–100 attendees per event; collaborated with IEEE WIE, SIGHT, Comsoc and PES on joint events
- Organized RF and antenna technology sessions featuring international speakers from Italy
- Managed event logistics, including speaker coordination, budgeting, and online platform setup, over a 2+ year term as Secretary

Class Representative | **Department of Electrical Engineering MUET** — Jamshoro, Pakistan

July 2024 – Nov 2024

- Served as the elected academic liaison between faculty and a class of 44 Electrical Engineering students for one semester, relaying announcements, schedule changes, and academic concerns, organizing other extra circular activities for students
- Coordinated with course instructors to resolve timetable conflicts, exam scheduling, and classroom issues on behalf of the class

AWARDS & SCHOLARSHIPS

- Prime Minister's Youth Laptop Scheme, Government of Pakistan (Apr 2026) — merit-based technology award for high-achieving students
- Sindh Education Endowment Fund (SEEF) Scholarship, Govt: of Sindh (Nov 2024) — merit-cum-need-based, renewed annually
- Merit List Scholarship, Department Top 10, MUET (Jun 2024) — consistently ranked 2nd in department

LANGUAGES

Urdu & Sindhi (Native), English (B2 – Upper Intermediate), German (A1 – Beginner)

CERTIFICATIONS

AI Prompts and Python basics (Coursera).
